DETAILED ACTION

Allowable Subject Matter

1. Claims 1-26 and 28-38 contain allowable subject matter. Applicant's arguments are persuasive that the references relied upon in the prior rejection no longer apply to the newly amended claims.

Reissue Applications

2. In accordance with 37 CFR 1.173, the reissue application contains the following errors:

With respect to 37 CFR 1.173 (c), amendments to the claims pursuant to paragraph (b) of this section, must also be supplied, on pages separate from the pages containing the changes, the status (i.e., pending or canceled), as of the date of the amendment, of all patent claims and of all added claims, and an ***explanation of the support in the disclosure of the patent for the changes made to the claims***. The amendment as filed fails to provide an explanation of support in the disclosure for the changes made to the claims.

With respect to 37 CFR 1.173 (d), any changes relative to the patent being reissued which are made to the specification, including the claims, upon filing, or by an amendment paper in the reissue application, must include the following markings:

- (1) The ***matter to be omitted by reissue must be enclosed in brackets***; and

Art Unit: 2856

(2) The ***matter to be added by reissue must be underlined***, except for amendments submitted on compact discs (§§ 1.96 and 1.821(c)). Matter added by reissue on compact discs must be preceded with "<U>" and end with "</U>" to properly identify the material being added. In this instance, the subject matter deleted in claims 5 and 26 must be enclosed in brackets; and the subject matter newly added in claims 29-38 must be underlined

3. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-26 and 28-38 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."
